DUROBOR[®]
REINVENTING GLASS EVERYDAY

MADEINBELGIUM[®]

THE PASSION OF GLASS SINCE 1928

Innovation, design and expertise

Durobor® was established in 1928, as the first company to introduce the automated process of manufacturing drinking glasses in Europe. Today, Durobor® perpetuates its expertise and stands out as a designer, producer of tumblers and stemwares & concept leader.

Durobor®, quality manufacturer

The Durobor® glasses are made of soda-lime and are totally lead-free. Professionals, our best ambassadors choose them for their quality and robustness.

Superior resistance

Durobor® produces durable glasses with increased resistance for an intensive professional use: mechanical shocks resistant.

The Durobor® products are resistant to thermal shocks induced by temperature variations of 65°C - 150°F ($\Delta T = 65^{\circ}\text{C} - 150^{\circ}\text{F}$).

Dishwasher safe

Refrigerator-freezer safe

Not suitable for oven

Each glass produced by Durobor® is made in our Soignies plant, Belgium.

MADE IN BELGIUM®

Unique & specific design

Adapted to the professional sector: while looks are always important, no line is without a practical advantage.

Long lasting & more resistant products

The specific burn off system of Durobor® gives all the resistance to the part of the glass where most abuse occurs: the rim.

The bead obtained by the cutting process of Durobor® reduces substantially the risk of breakage at the edge.

Stronger rim

Heavy base & bubble

The Bubble in the heavy base: a distinctive symbol of the brand.

Durobor® is recognised around the world for its products specially designed to meet the expectations of its 4 pillar-products:

Durobor® Savours

The merging of the eat & drink products.

Durobor® Yours

Design and decoration expertise for brands.

Beer

Building on its experience in the B2B sector, its close links with brewing partners and Belgian expertise in the area of beer, Durobor® is an expert in this category convinced of the importance of the glass to enjoy a beer. Indeed, the shape of the glass is essential in the perception and evaluation of the complex aromas of the beer. Durobor® proposes a wide assortment of glass designs for a perfect tasting experience of a large range of world beers.

Bar

Durobor® is a reference in the professional world for its dedication to meet the needs and requirements of the professional sectors. The original shape of its glasses will optimally enhance the drinks by offering a perfect symbiosis between design and the intended use of the product. Synonym of strength, elegance and conviviality, Durobor® glasses welcome you into a world of drinking experiences.

Buffet

Recognised worldwide for its specific glasses for the drink sector, Durobor® truly was a pioneer with the introduction of the Eat by Durobor® collection.

Durobor® is the undisputed leader in the « Eating in a glass » trend, with the largest range of glass bowls that combines the joys of design and art de la table.

Durobor offers a wide range of contemporary, elegant and sturdy glasses and provides you with a unique gastronomic experience.

Brand owners first choice !

Durobor® is also one of the main suppliers of glasses to the promotional and beverage industries: the company has its own decoration department on its production plant & develops exclusive designs for brands for its Business to Business activity.
